

BEHÄLTER- UND APPARATEBAU

Machinery

Thermal Cutting

- CNC thermal cutting machines, gas 200 x 5,000 x 16,000 mm
- CNC thermal cutting machines, plasma 30 x 5,000 x 16,000 mm

Machining

- 3-roll bending machines width max. 3,600 x 40 mm
- 4-roll bending machine width max. 4,000 x 20 mm
- CNC boring/milling machine max. \varnothing 1,000 mm
- CNC horizontal turning centres max. \varnothing 4,300 mm
- Turning lathes
- Boring mill tables
- Miller for circumferential welds
- Folding machine
- Expanding machine for tubes

Welding

- SAW welding machines
- GTAW welding machines
- FCAW welding machines
- SMAW welding machines
- Orbital welding machines for tubes
- Turning devices for apparatus

Extended possibilities

In the company group we have following further machining and production possibilities together with the companies Landruf Rohrtechnik GmbH and Sieghaler Fabrik GmbH

Shells, tubes

\varnothing 4.000 x 70 mm, max. 4.200 mm with circ. seam

Boring of heat exchanger tube plates

\varnothing 7.000 x 200 mm

Machining

\varnothing 10.000 x 2.900 mm

CNC boring and milling possibilities

\varnothing 6.000 x 3.200 x 1.000 mm

Horizontal boring mill

\varnothing 4.800 x 11.400, 40t
